

# EMU

Extensions  
Modernizations  
Upgradings

once upon a time  
YOC 1971

nowadays  
YOC 2014

Still the peak in finishing machinery

# Extensions, Modernizations, Upgradings

A machine of the brands Artos, Krantz or Stentex can be adapted to new requirements in various ways.

EMU - Extensions, Modernizations, Upgradings – provide endless possibilities.

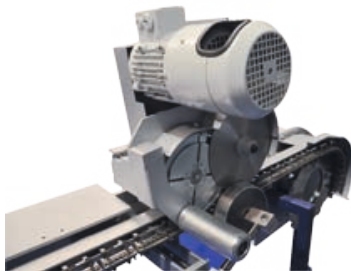

We would gladly like to submit an appropriate proposal to you.

The period of wasting oil is gone – utilize our lubrication-free chains.

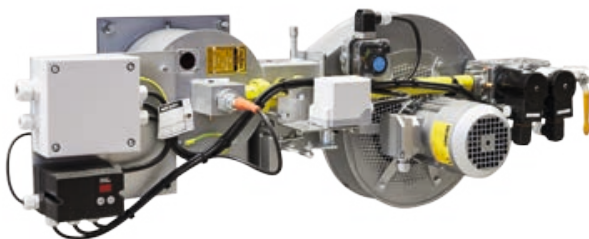

From transmittance to the digital world – with our control system.

Our selvedge cutting device limits the waste of cut selvages to a minimum. It is an optimal supplement to the upgrading of your machine to knitted fabrics.

A new stenter frame is not always necessary – our stenter frame extensions are more efficient as you may expect.

The conversion of the heating system to oil circulation, gas or steam can be transacted easily because we have the construction data for the correct components.

The change to different chain top parts – can be realized easily with our components.
